CREATING FUTURE LOCAL HEROES

ACADEMY FUTURE LOCAL HEROES

It is every fans dream to watch a team full of local players and you can play a part in helping the club achieve this.

As a Dons4Life member you have the opportunity to make a monthly investment into a support fund for the club and most importantly the academy.

Every penny that our committed Dons4Life members invest goes into an account (separate to that of the playing budget), towards making this club future.

Whether it's £4 or £400 per month that you invest, every single penny helps the Dons, you choose how much you want to invest each month,

In 2019 the Dons4Life fund contributed towards the re-housing of Papua New Guinea international Watson Boas.

However, it is the long held passion of Chief Executive Carl Hall to provide a pathway to the Dons first team that will produce key members of the first team squad.

From 2020 monies provided by Dons4Life members will contribute to the Dons Rugby League Academy.

HOW DOES THE ACADEMY WORK?

The Dons Rugby League Academy is a specialist, extra-curricular activity, in partnership with the Club Doncaster Sports College, that runs alongside the learners' academic qualifications.

The players are coached by members of the senior coaching staff at the club, first team players in addition to the academies own highly professional and qualified coaches (qualified to a minimum of UKCC Level 2). This is a unique opportunity for players to represent Doncaster RLFC against other colleges within the Yorkshire region and offering a pathway to the Dons first team.

The academy has already produced first team squad member Ben Howe and is continuing to nurture local talent.

WHAT DO WE OFFER IN RETURN TO YOU?

- A bi-monthly draw for exclusive Dons prizes
- Our end of season draw to win a signed Dons match worn shirt
- Offers and discounts throughout the season
- An end of season update on the Dons4Life expenditure over the season
- The opportunity to become part of the Dons future

To become a member please complete the form overleaf.
